

Octopus & Infinity Innovations

Discount voucher on your Standard Lux ac, hybrid or squirrel pod system purchase

What we are offering?

With this new and exciting voucher scheme, you can claim £100 per Lux Unit you have installed by an approved installer.

How does it work?

In order to receive your voucher simply contact us by email and we will send you a simple form to complete. We will generate a 30 day voucher with an approved installer who covers your area.

What is an approved installer?

Our approved installers are companies who have received training with Infinity Innovations Ltd. and are regularly supplying and installing the Lux Power systems throughout the UK. Each company has also agreed to honour this discount voucher.

How do I know this is genuine?

You do not need to make the installation company aware that you are using the voucher scheme until the point of payment. You can contact them as any customer would contact them and provide the voucher only at point of payment.
